Abstract:

{This specification defines...}

Status:

(Use the following for a working draft)

This [Working Draft](#) (WD) has been produced by one or more TC Members; it has not yet been voted on by the TC or [approved](#) as a Committee Draft (Committee Specification Draft or a Committee Note Draft). The OASIS document [Approval Process](#) begins officially with a TC vote to approve a WD as a Committee Draft. A TC may approve a Working Draft, revise it, and re-approve it any number of times as a Committee Draft.

(Use the following for approved documents)

This document was last revised or approved by the {TC name | membership of OASIS} on the above date. The level of approval is also listed above. Check the "Latest version" location noted above for possible later revisions of this document.

Technical Committee members should send comments on this specification to the Technical Committee's email list. Others should send comments to the Technical Committee by using the "[Send A Comment](#)" button on the Technical Committee's web page at <http://www.oasis-open.org/committees/{short name}/>.

For information on whether any patents have been disclosed that may be essential to implementing this specification, and any offers of patent licensing terms, please refer to the Intellectual Property Rights section of the Technical Committee web page (<http://www.oasis-open.org/committees/{TC short name}/jpr.php>).

OASIS requests that any OASIS Party or any other party that believes it has patent claims that would necessarily be infringed by implementations of this OASIS Committee Specification or OASIS Standard, to notify OASIS TC Administrator and provide an indication of its willingness to grant patent licenses to such patent claims in a manner consistent with the IPR Mode of the OASIS Technical Committee that produced this specification.

OASIS invites any party to contact the OASIS TC Administrator if it is aware of a claim of ownership of any patent claims that would necessarily be infringed by implementations of this specification by a patent holder that is not willing to provide a license to such patent claims in a manner consistent with the IPR Mode of the OASIS Technical Committee that produced this specification. OASIS may include such claims on its website, but disclaims any obligation to do so.

OASIS takes no position regarding the validity or scope of any intellectual property or other rights that might be claimed to pertain to the implementation or use of the technology described in this document or the extent to which any license under such rights might or might not be available; neither does it represent that it has made any effort to identify any such rights. Information on OASIS' procedures with respect to rights in any document or deliverable produced by an OASIS Technical Committee can be found on the OASIS website. Copies of claims of rights made available for publication and any assurances of licenses to be made available, or the result of an attempt made to obtain a general license or permission for the use of such proprietary rights by implementers or users of this OASIS Committee Specification or OASIS Standard, can be obtained from the OASIS TC Administrator. OASIS makes no representation that any information or list of intellectual property rights will at any time be complete, or that any claims in such list are, in fact, Essential Claims.

The name "OASIS" is a trademark of [OASIS](#), the owner and developer of this specification, and should be used only to refer to the organization and its official outputs. OASIS welcomes reference to, and implementation and use of, specifications, while reserving the right to enforce its marks against misleading uses. 1. Introduction

This is a pro-forma XML instance of the DocBook [DocBook] vocabulary illustrating the components of an OASIS standards-related document. This XML file also includes the use of XML stylesheet association [xml-assoc].

The markup is suitable for publishing according to OASIS conventions by using the available OASIS Specification Publishing in DocBook XML stylesheets [oasis-spec]. Please review the publishing information for details on the environment and this template.

All text is normative unless otherwise labeled.

1.1. Terminology

1.1.1. Key words

The key words *must*, *must not*, *required*, *shall*, *shall not*, *should*, *should not*, *recommended*, *may*, and *optional* are to be interpreted as described in [RFC 2119]. Note that for reasons of style, these words are not capitalized in this document.

3. Conformance

The last section contains the conformance clauses/statements.

Appendix A. Normative Annex

Normative appendices are not marked as non-normative using an attribute.

Appendix B. Non-normative Annex (Non-Normative)

Non-normative appendices are marked as such using an attribute.

Appendix C. Acknowledgements (Non-Normative)

In a typical OASIS work product one might wish to list committee participants in a non-normative annex (markup shown above in the normative annex example) using wording along the line of "The following individuals have participated in the creation of this specification and are gratefully acknowledged:"

- Mary Baker, Associate Member
- Jane Doe, Example Corporation Member
- John Able, Other Example Corporation Member

Note that the itemized list uses `spacing="compact"` to remove the space between list items in the printed result, not the HTML result).
