

Web Services Security Kerberos Token Profile 1.1

OASIS Errata Committee Draft 01, 25 August 2006

OASIS identifier:

wss-v1.1-errata-KerberosTokenProfile

Location:

<http://docs.oasis-open.org/wss/v1.1>

Technical Committee:

Web Service Security (WSS)

Chairs:

Kelvin Lawrence, IBM
Chris Kaler, Microsoft

Editors:

Anthony Nadalin, IBM

Abstract:

This document describes how to use Kerberos [Kerb] tickets (specifically the AP-REQ packet) with the WSS: SOAP Message Security [WSS] specification.

Status:

This is an **OASIS Draft** listing errata for the **OASIS Standard** produced by the Web Services Security Technical Committee. The standard was approved by the OASIS membership on 1 February 2006.

Technical Committee members should send comments on this specification to the technical Committee's email list. Others should send comments to the Technical Committee by using the "Send A Comment" button on the Technical Committee's web page at www.oasisopen.org/committees/wss.

For information on whether any patents have been disclosed that may be essential to implementing this specification, and any offers of patent licensing terms, please refer to the Intellectual Property Rights section of the Security Services TC web page (<http://www.oasis-pen.org/who/intellectualproperty.shtml>).

33

Notices

34 OASIS takes no position regarding the validity or scope of any intellectual property or other rights
35 that might be claimed to pertain to the implementation or use of the technology described in this
36 document or the extent to which any license under such rights might or might not be available;
37 neither does it represent that it has made any effort to identify any such rights. Information on

38 OASIS's procedures with respect to rights in OASIS specifications can be found at the OASIS
39 website. Copies of claims of rights made available for publication and any assurances of licenses
40 to be made available, or the result of an attempt made to obtain a general license or permission
41 for the use of such proprietary rights by implementors or users of this specification, can be
42 obtained from the OASIS Executive Director. OASIS invites any interested party to bring to its
43 attention any copyrights, patents or patent applications, or other proprietary rights which may
44 cover technology that may be required to implement this specification. Please address the
45 information to the OASIS Executive Director.

46

47 Copyright (C) OASIS Open 2006. All Rights Reserved.

48

49 This document and translations of it may be copied and furnished to others, and derivative works
50 that comment on or otherwise explain it or assist in its implementation may be prepared, copied,
51 published and distributed, in whole or in part, without restriction of any kind, provided that the
52 above copyright notice and this paragraph are included on all such copies and derivative works.
53 However, this document itself may not be modified in any way, such as by removing the copyright
54 notice or references to OASIS, except as needed for the purpose of developing OASIS
55 specifications, in which case the procedures for copyrights defined in the OASIS Intellectual
56 Property Rights document must be followed, or as required to translate it into languages other
57 than English.

58

59 The limited permissions granted above are perpetual and will not be revoked by OASIS or its
60 successors or assigns.

61

62 This document and the information contained herein is provided on an "AS IS" basis and OASIS
63 DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO
64 ANY WARRANTY THAT THE USE OF THE INFORMATION HEREIN WILL NOT INFRINGE
65 ANY RIGHTS OR ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A
66 PARTICULAR PURPOSE.

67

68 OASIS has been notified of intellectual property rights claimed in regard to some or all of the
69 contents of this specification. For more information consult the online list of claimed rights.

1 Issues Addressed

The following issues related to the Web Services Security Kerberos Token Profile 1.1 listed in the Web Services Committee Issues List [WSS-Issues] have been addressed in this document:

Issue	Description
456	Correct Examples to have correct TokenType

85 **2 Typographical/Editorial Errors**

86 **2.1 Section 3.3 Identifying and Referencing Kerberos Tokens**

87 Line 229 added the correct `TokenType` to the example.

88 Line 255 added the correct `TokenType` to the example.

89 **3 Normative Errors**

90 None
